PROJECTS

- Final Year Project - Pinelo** | *MongoDB, Express, React, Node, Docker, Vercel* Aug 2025 – Present
- Designed and developed a print-on-demand marketplace connecting designers, manufacturers, and customers.
 - Designed Etsy-inspired UI/UX flows to improve product discoverability and user engagement
 - Designed scalable marketplace architecture with product management and order workflows.
 - Developed responsive frontend interfaces and optimized user journeys for better engagement.
 - Collaborated on branding, platform strategy, and user-centered design decisions.
- Salon Appointment Booking Platform** | *React.js, MongoDB, GitHub, Vercel, PayPal* Sep 2025 – Nov 2025
- Redesigned a salon appointment booking platform in React.js to improve ad conversions and user experience.
 - Integrated PayPal payment workflows and streamlined appointment booking flows.
 - Worked directly with international clients based in Dubai and Canada on UI/UX improvements and business requirements.
- Thobe Fashion Brand Website** | *Figma, Canva* Nov 2025 – Dec 2025
- Redesigned a premium thobe fashion website to improve brand positioning and business engagement.
 - Designed modern landing, catalog, about, and inquiry pages with responsive UI/UX principles.
 - Enhanced user flows and visual hierarchy to create a more conversion-focused browsing experience.

EXPERIENCE

- UI UX Design Intern** July 2025 – Sep 2025
Aangan, Hybrid Islamabad, Pakistan
- Designed UI/UX flows, wireframes, and interactive mobile app prototypes for Aangan using Figma.
 - Applied responsive design principles, typography, and modern UI patterns to enhance user experience.
 - Collaborated with development and marketing teams through standups and design feedback sessions.
 - Created reusable design components and maintained visual consistency using Figma and Canva.
